### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Pavan Agarwal on 6/15/2007. Specifically, authorization was given to shorten abstract to comply with 37 CRF 1.72(b). Specific wording was not discussed, however the examiner has not changed any wording, only deleted superfluous subject matter drawn to non-elected inventions.

The application has been amended as follows:

The abstract of the disclosure is to be replaced with:

An optical multi-beam scanning device has a plurality of pre-deflection optical units, an optical path synthesizing member and an excessive light processing member. The excessive light processing member processes excessive light emitted from an excessive light emitting surface which is not an incident surface nor an emitting surface of the optical path synthesizing member. The excessive light processing member has a multi-stage taper constitution with a plurality of taper surfaces having different tilt angles.

### **ALLOWANCE**

1. Claims 4-5 and 20-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding Claims 4-5: Examiner's reasons for allowance are detailed in the previous office action dated 3/1/2007.

Regarding Claims 20-21: The claims are considered allowable as depending from allowable base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
